ENG 09:16 19-06-2021

Steps involved in BI Report Creation

- Create New data model
- Querying corresponding report
- If needed create parameters and List of Values/Bursting
- Then view the data model in Table view
- Save the sample data and then save.
- Then export
- XML file will be downloaded and save this xml file into chainsys folder
- Open that file in word remote desktop

Steps involved in Remote desktop word

- Load the sample data by clicking on Sample xml folder
- Then insert table columns and rows
- Click fields in the top bar/{Table wizard}
- Then insert the corresponding fields in to columns
- Using Table wizard group by concern column[eg: Business unit]
- Double click on that column, go to advanced, then put <?if:Business_unit?>
- And close the if statement using developer===>click legacy tool(suitcase

  icon)==>double click on that indent then close using<?end if?>
